Records Management Consultancy

How Do we Know What we Know?

With collectively 20 years experience in the Records Management Industry, across 3 continents, working in conjunction with hundreds of Records Management Companies, DUMAS Consulting Associates are uniquely placed to assist all sizes of Records Management Companies with their operational and software procedures. We specialize in finding lost revenue and reorganizing operations to maximize productivity and profitability.

Our unique perspective from global experience means that we are able to offer an unparalleled depth of knowledge in the Records and Information Management Industry. Our consultants are well known in the industry and can call on resources that will benefit any company. Our future depends on ensuring our clients receive the best consultancy and ultimately become long term partners ensuring their operations go from strength to strength.
